

CYBER INSURANCE

Cyber Insurance protects your client's business against the costs associated with a system cyber-attack or data breach. This insurance provides both first- and third-party cover to assist your client in recovering from a cyber or data breach incident.

CYBER RESPONSE

After a Cyber incident, we provide a first-class claims service, with access to our approved cyber security specialists to help get your clients' business up and running again, and most importantly, prompt payment of claims.

CYBER SECURITY SPECIALISTS

Following a security compromise or cyber-attack, it is critical to have access to cyber security specialists in the first few minutes or hours following the incident. Our list of approved cyber security specialists are there to help you meet the event challenges that confront you following a security compromise of your computer systems or network.
